YOUR PARTNER FOR PROJECTS

TSUBAKI KABELSCHLEPP – inventor of the cable carrier. The product portfolio comprises over 100,000 steel and plastic variants as well as hybrid systems. Always a suitable, reliable cable carrier, whether standard or individual complete solution.

UNIFLEX Advanced *(for example)*

Our TRAXLINE® cables are continuous bending hi-flex and very durable. Tested functional reliability which meets applicable standards and guidelines is an essential criterion.

TRAXLINE® cables for cable carriers

- » Space-saving design
- » Fixed cables are directly mounted on the bracket (safely behind the guide channel)
- » Easy and fast assembly by only one fitter
- » The same mounting brackets for different sizes/chain types

Easy Guide System

- » Available from 75 mm inner width and 125 mm bending radius
- » Suitable for extremely long travel lengths
- » Cable outlet on the driver alternatively towards the front or rear
- » Standard lengths of the aluminum profile
- » Mounting distance of the channel brackets flexibly adaptable

Vertical Guide System

TOTALTRAX® COMPLETE SYSTEMS FROM PLANNING TO THE FINAL COMPLETE SYSTEM

Use our know-how. Working jointly with you, our experienced specialists can provide pre-sale support, including planning and design services through after sales service and support.

One order, one contact person, components optimally matched to each other, including the cable and hose carrier, the electrical cables, the hydraulic and pneumatic hoses and the connectors. You receive the complete TOTALTRAX® system in one delivery.

Reduce your storage costs with TOTALTRAX®. We supply all components Just-In-Time to your production facility or directly to the installation site.

EXPERT INSTALLATION BY OUR SERVICE TEAM

Let our service team handle the planning and execution of the installation of cable and hose carrier systems. We provide the support you need:

- » complete assembly including the guide channel and the substructure
- » uncoiling and assembling cable and hose carrier systems for telescope applications
- » accurate installation in harsh conditions at high altitude
- » commissioning and acceptance
